NOEL PINTO
Software Engineer

Mumbai, India 400078 • noelpinto47@gmail.com • + 91 8828466218

PROFESSIONAL SUMMARY

Detail-oriented Software Engineer skilled in front-end and back-end development with frameworks like React.js and Node.js. Proficient in Java, JavaScript, Python, and SQL, with experience in building scalable applications and optimizing performance.

SKILLS

- **Frameworks**: React.js, Flutter, Dropwizard, Node.js, ASP.NET
- **Programming Languages**: Java, JavaScript, C#, Python, Go, C++, SQL, HTML, CSS, PHP
- **Databases:** MySQL, PostgreSQL, MSSQL, MongoDB
- **Cloud:** Google Cloud Platform (GCP), Amazon Web Services (AWS)
- **Project Management Tools**: Git, GitHub, JIRA, Confluence, Monday.com
- **Methodologies:** Agile, Scrum (Sprint), Software Development Life Cycle (SDLC)

WORK EXPERIENCE

QUBEHEALTH   **Andheri West, Mumbai, India**
Software Engineer   **SEPTEMBER 2023 - Present**

- Spearheading backend development in Java using the Dropwizard framework to build a scalable microservices architecture.
- Implementing scheduling scripts using Cron for efficient task automation, enhancing system performance by 30%.
- Designed and implemented migrations in Golang for the QubePay transactional service to enhance suspicious detection processes.

Technical Management Trainee   **DECEMBER 2023 - AUGUST 2023**

- Internal Management System (IMS)
  - Designed and delivered an MVP in React.js with a Java backend within 2 weeks, facilitating a 40% reduction in processing times post-launch.
  - Led a team of 4 in feature development based on operations requirements, ensuring alignment with business objectives.
- Cluster Dashboard (CD)
  - Developed a robust website using React.js and Node.js, and successfully migrated the backend from Node.js to Java, enhancing maintainability.

  Contributed to various other projects, including a documentation website and generative AI applications, improving project delivery efficiency.

VISANKA TECHNOLOGIES PVT LTD   **(REMOTE) Chennai, India**
Mobile Application Developer (Internship)   **OCTOBER 2023 - DECEMBER 2023**

- Designed an efficient ER model for database management, optimizing data retrieval processes.
- Utilized MySQL with REST APIs and GetX observables to ensure smooth data interaction.
- Implemented responsive UI design principles for an exceptional user experience across devices.

AMAZON DEVELOPMENT CENTRE (REMOTE) **Mumbai, India**
Customer Service Associate MAY 2023 - SEPTEMBER 2023

- Enhanced customer service operations in a dynamic retail environment, contributing to a 15% improvement in customer satisfaction scores.
- Independently completed four Flutter projects, demonstrating a commitment to skill enhancement and readiness for tech roles.

EDUCATION

JAIN (DEEMED-TO-BE) UNIVERSITY (REMOTE) **Bangalore, India**
Master of Computer Applications, Specialization in Data Analytics 2024 - 2026 (Expected)

ST. XAVIER'S COLLEGE **Mumbai, India**
Bachelor of Science in Information Technology 2020-2023

CERTIFICATIONS

- Mobile App Development Foundations
- Data to AI

PROJECTS

Ecostora (Built using Flutter and Node.js with Python for AI)
- Flutter -
  - Developed an eco-friendly food marketplace app using Flutter, promoting sustainable living through responsible sourcing.
- Rasa AI -
  - Implemented Natural Language Understanding (NLU) capabilities using Python to enhance user interaction with Excel sheets.

HONORS & AWARDS

- 1st in Code Debugging (C++, Java, Python), Nirmala Memorial Foundation College of Commerce and Science, Feb 2022
- 1st in Codewars - Mixed Languages (Java, C++, Python, HTML), Jai Hind College Incubator and Accelerator Centre, Feb 2021
- 1st in Techstorm - Java Coding Inter-college Event, Issued by Ramnarain Ruia College, Feb 2021

ADDITIONAL INFORMATION

- **Languages**: TOEFL iBT - 92/120 (Feb 2023)
- **Interests**: Exploring emerging technologies, automation, and mobile app development.
- **Hobbies:** Playing outdoor games (football, table tennis), music (singer and keyboardist), chess, reading, and tech research.
